ADDENDUM # 05A
3-22-2018

SL-03
**GENERAL NOTES:**

1. Extruded aluminum to be of 6063-T5 alloy (minimum).
2. All fasteners to be 300 series stainless steel.
3. Extruded aluminum sills, ribs, and splices to have a minimum thickness of .125". Extruded aluminum retainers and glazing stops to have a minimum effective thickness of .109".
4. Skylights are designed to support a minimum 40 P.S.F. live load, plus all dead loads with a maximum deflection of 1/75.
5. Installation of skylights - Not by Wasco.
6. Any changes that occur after approval of skylight may result in an add to contract and delay in delivery of skylights.
7. By units will ship 40, inside fastened, with ends assembled.
8. Off-site installation or skylight components is the responsibility of the customer.
9. Wasco reserves the right to make changes without notice when, in the opinion of the company, such changes improve the product or its performance.

<tr>
<th>Unit Quantity</th>
</tr>
</thead>
<tbody>
<tr>
<td>Frame Width or Model#</td>
</tr>
<tr>
<td>Bay Spacing</td>
</tr>
<tr>
<td>Screen Material</td>
</tr>
</tbody>
</table>

General Notes:
1. Screen material - galvanized steel (standard) or stainless steel (optional).
2. Rise is standard to allow clearance above a nominal 25% dome rise.
3. Larger units may have a splice joining two smaller sections of screen material.
4. Screen frame - mill finish aluminum.
5. Assembly fasteners - stainless steel
