ECON 318, Assignment 12:
Perez – Financial and Production Capital

1. Read the entire chapter.

2. Find an example of a failed company from any phase. You can search around for anything, but failed car companies from the early 20th century and failed dotcoms from the late 1990s may be the easiest. How did your company (or commentators on your company) justify its high valuation prior to collapse.
